

BMP

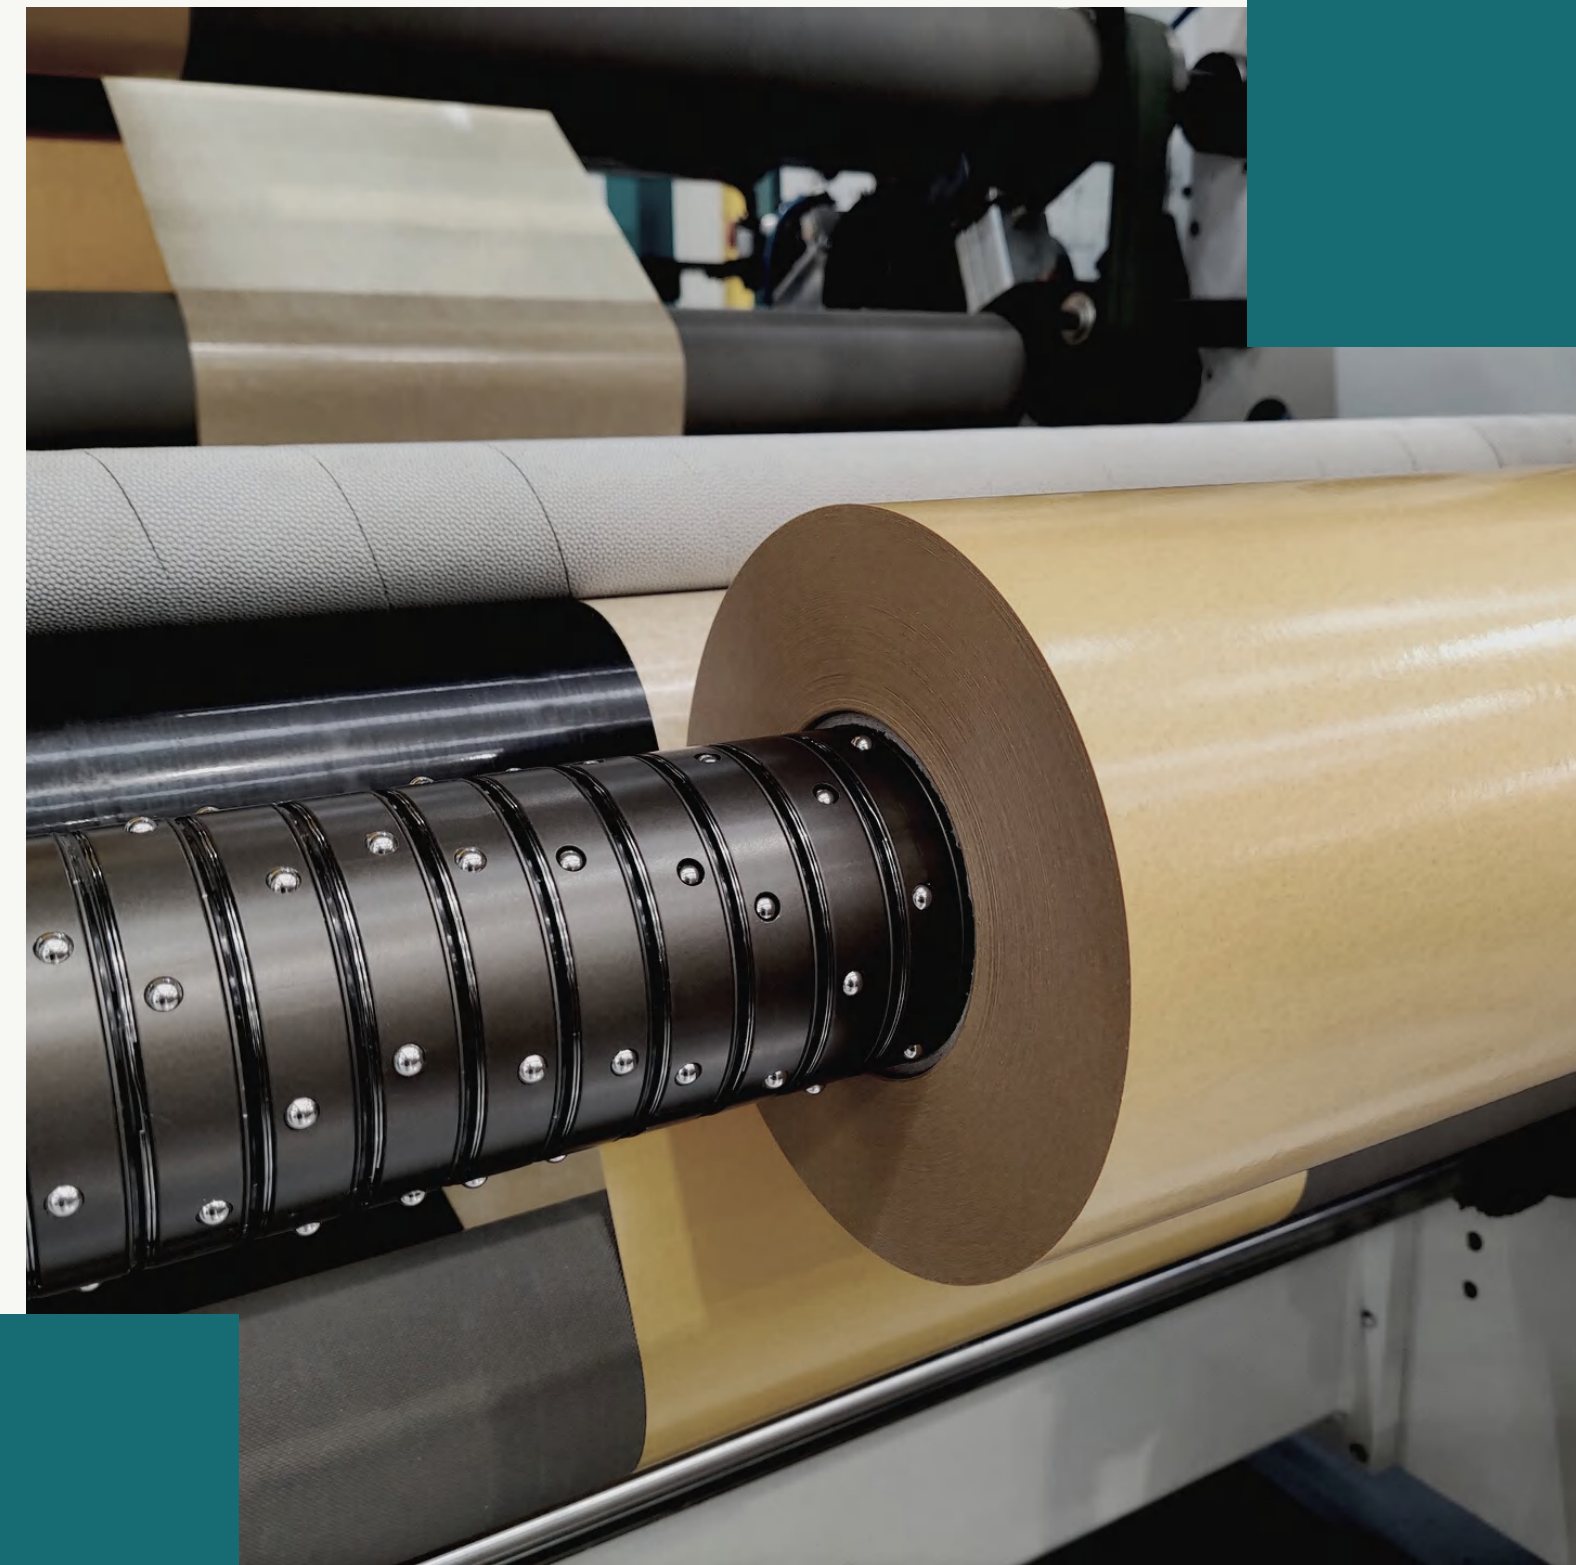

30
YEARS
TOGETHER

1992 2022

HISTORY

FROM 1992 TO TODAY

BMP was founded in 1992 in Vanzago (a small town in the north of Milan) as a firm initially specialized in sub-contracting converting of single and double-sided adhesive tapes.

BMP

HISTORY

FROM 1992 TO TODAY

The constant updating and the research of solutions as well as proper materials for the customers' needs have led BMP to widen the range of its products adding to adhesive tapes also liquid adhesives, sealants and dosage or application systems.

HISTORY

FROM 1992 TO TODAY

Since the beginning BMP
has been specializing in
technical adhesive solutions
especially for the automotive
field, becoming the Italian
market leader.

BMP 30 YEARS TOGETHER | HISTORY

BMP

HISTORY

FROM 1992 TO TODAY

With the 2008 crisis - particularly relevant on the automotive sector - the company has chosen to focus more and more on other fields.

BMP 30 YEARS TOGETHER | HISTORY

HISTORY

FROM 1992 TO TODAY

In 2018, the constant growth rate – particularly in the industrial market - has led the company to move of its activity to his new bigger site in Origgio (VA) where we have multiplied our own production capacities.

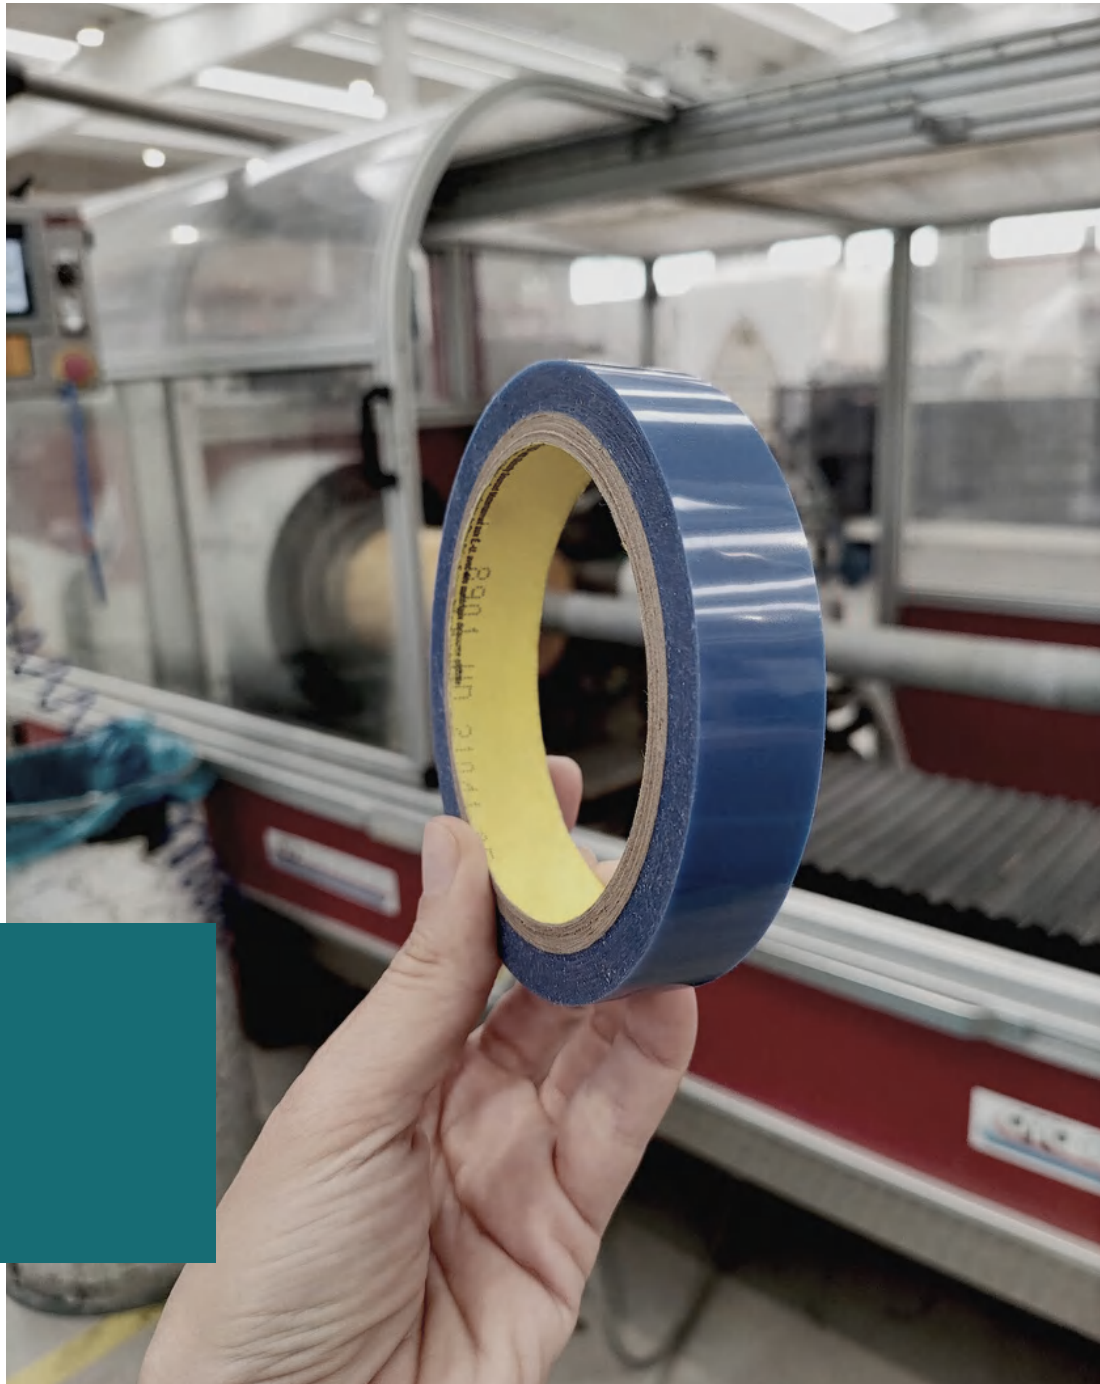

BMP 30 YEARS TOGETHER | HISTORY

A close-up photograph of a hand operating a die-cutting machine. The machine is processing a sheet of material, likely leather or a similar synthetic material, which is being fed through a series of rollers and a cutting head. The background is a solid teal color, and the overall image has a professional, industrial feel.

THE FLEET

OUR MACHINERY

Along the years, BMP has adopted a wise and continuous policy of investments including die-cutting, joints, laminations and semi-finished good assemblies, among its services.
